

Polyethylene Dewar Flasks

Shatterproof. For short-term storage of ice water, dry ice-solvent and liquid nitrogen. Chemical-resistant HDPE double walls are filled with CFC-free urethane foam and withstand temperatures from -196°C to $+100^{\circ}\text{C}$. Vented, insulated cover. All sizes feature molded-in ribs for added safety when held. Built in spout for easy pouring. Finger grip on bottom for secure handling. Convenient bail-type handle on 1-, 2- and 4-liter sizes
